

COST TU1402: Status and Strategy Workshop

Objectives

The Status and Strategy Workshop is held after two years of the COST Action TU1402 and aims at the development of a strategy for the remaining two years.

The progress in the first two years will be summarised in conjunction with the Memorandum of Understanding, the Action's intermediate report and its assessment by COST. The progress will be the basis for (1) identifying potentials and ideas for further developments and (2) blank spots where efforts need to be directed to.

Building on the analysis of the Action's progress in the last two years, a strategy for the remaining two years will be developed. The strategy to be developed, encompasses an overall Action strategy and aligned WG and activity wise strategies.

Deliverables

The deliverables of this Workshop comprise two strategy documents containing:

1. The COST TU1402 Strategy 2017 and 2018 (to be finalised by the Steering Committee)
2. WG Strategies (to be finalised by the WG and activity leaders)

The strategy documents are due on the 15th of February 2017. The strategy documents will be disseminated through the Actions website.

Organisation

The workshop is organised in plenary sessions where the overall Actions strategy is developed and in parallel WG sessions for the development of WG strategies. The plenary sessions will be audio and video recorded.

Dates

23. and 24. of January 2017

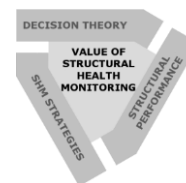

Venue and accommodation

COST Association | Avenue Louise 149
1050 Brussels | Belgium

Local Organisers
